

CUSTOMER USE CASE

High data security combined with individual corporate governance

RELIAS

 pflegeclever.
by Relias

Relias Learning GmbH, a subsidiary of Bertelsmann Education Group and a leading provider of digital education, has chosen a private cloud solution from German cloud storage provider leitzcloud. With this, Relias Learning benefits from maximum security management and corporate governance through a private cloud hosted in a data center in Frankfurt am Main, Germany, with off-site backup located in Mannheim, Germany.

About Relias Learning GmbH

The Relias Learning GmbH, a subsidiary of the Bertelsmann Education Group, is a globally recognized leader in providing digital education specifically for the healthcare industry.

Our mission is to enhance the quality of life for individuals in need through sustainable digital education for healthcare professionals. With over 200 B2B customers nationwide and 220,000 users in Germany alone, Relias is at the forefront of innovation in the rapidly growing e-learning sector.

The company offers two intuitive learning platforms and a wide range of e-learning courses covering mandatory training, expert standards, and other specialized topics.

WHY

Relias Learning turned to leitzcloud, a German cloud provider that not only met all security requirements but also served as a personal cloud storage provider accessible in case of emergencies.

German data protection as a top priority

When searching for a **GDPR-compliant** cloud provider, Relias Learning placed German data protection and data privacy at the forefront. leitzcloud is certified according to **TÜV ISO 27001:2017 and 2020** standards. Additionally, our georedundant German data centers hold various TÜV ISO certifications.

The feature-rich suite designed for businesses offers **versatile corporate governance** functions for seamless and secure administration.

- ✓ High reliability and availability guaranteed with a 99.9% uptime guarantee.
- ✓ Fast and personalized support with a dedicated contact person, even in emergencies.
- ✓ Data remains in Germany: GDPR-compliant, with two independent data center locations and backups.
- ✓ Individual and flexible corporate governance management: (security) policies, user settings, and access rights allocation.

SECURE NETWORKING FOR DIGITAL EDUCATION

"We came across leitzcloud and quickly noticed that they had by far the best service. With leitzcloud, we were able to securely exchange data with our extensive network of hospitals and care facilities, set up SSO using Okta, and, on top of that, make various technical configurations - on our own cloud platform."

- Maik Dinkler (IT & Platform Manager)

FOR OUR CUSTOMERS

With leitzcloud, the company can securely store the enormous amount of data from e-learning platforms, training sessions, lectures, and other sources according to its own data protection requirements.

FOR OUR EMPLOYEES

Both internal data, including HR and personnel, as well as teamwork and document exchange, take place through leitzcloud. Additionally, collaboration in teams is facilitated by location-independent and remote work.

CHALLENGES

Increased data protection requirements must be taken seriously, especially in the education and healthcare sectors. It is important to act quickly and securely in these areas.

Lack of diverse administration capabilities for different teams in various locations.

Data must not leave Germany, and GDPR compliance must be guaranteed.

Tedious collaboration on documents due to the lack of automatic backups.

Obstacles in user authentication through the chosen provider.

SOLUTIONS THANKS TO LEITZCLOUD

Relias Learning chose leitzcloud, opting for a highly secure and reliable cloud storage solution designed to meet enterprise requirements.

Maximum **security management** and cross-organizational and location-independent **corporate governance**.

Excellent German security with high **data protection standards** for cloud data.

Automatic backups at the document level (revisions) and structure level (snapshots).

Authentication options via **SSO integration through private cloud** are easily possible.

"Our most sensitive data is the content of our e-learning platforms. We work with heightened awareness when it comes to data protection. leitzcloud exceeded all of our data protection requirements."

- Maik Dinkler (IT & Platform Manager)

IN COMPARISON

When handling confidential data, data security has always been a top priority. Whether using leitzcloud's **public** or **private** cloud, all risks are covered, and scalability is not an issue.

With a leitzcloud private cloud, even more robust security and corporate governance can be achieved. The combination of in-house cloud infrastructure and leitzcloud ensures full control over all systems, transparent management, and long-term cost savings.

PUBLIC CLOUD

Quick Scalability

Easily adjust computing resources based on demand without upfront investment.

Flexibility and Agility

Offering a wide range of services and tools enable businesses to quickly develop, test, and deploy applications.

Global Reach

Deploy applications closer to end-users and expand into new markets.

Maintenance and Updates

Cloud providers handle infrastructure maintenance and updates which reduces personnel efforts.

Cost-effectiveness

Pay only for what you use, reducing upfront costs for hardware and infrastructure, reducing capital expenditure.

PRIVATE CLOUD

Maximum data control

You define the compliance and security management for your organisation, for example, through custom IP access capabilities.

Long-term cost savings

You can accurately calculate your IT resource needs and define your infrastructure with us at any time.

Individual implementation

Quick availability, long-term cost savings, and high service level.

Absolute security

Own security measures, full admin control, and additional data privacy functionalities such as Single Sign-On (SSO).

Whitelabel functionality

Whitelabel your leitzcloud with your own branding and implement your corporate identity for the perfect corporate presence.

THE CLOUD AS A SUCCESS FACTOR

With over 220,000 users in Germany alone, Relias Learning is one of the largest providers of e-learning for the healthcare sector. leitzcloud provides enterprises like Relias Learning with dedicated infrastructures in our data centers to ensure their own hardware and increased security management. Private cloud environments offer the highest level of data protection through completely independent structures and long-term efficiency through predictable resources.

Thanks to highly qualified and competent staff on-site, fast and personalised enterprise support is guaranteed for Relias Learning at all times.
